

"The Wok: A Serious Eats Digital Issue" Debuts Today

The Brand's First-Ever Digital Issue Features Singular Recipes, In-Depth Reporting and Interviews, Video Guides, Product Reviews, and Powerful Storytelling

NEW YORK, April 4, 2022 /PRNewswire/ -- Dotdash Meredith's **Serious Eats** today unveils its inaugural digital issue spotlighting **the wok** with wide-ranging coverage of this ultra-versatile kitchen essential, including exclusive new recipes from celebrated chefs and recipe developers such as **Jenny Dorsey, Adam Liaw, Derek Lucci, Lucas Sin, Clarissa Wei, and Kenji López-Alt**. "The Wok: A Serious Eats Digital Issue" also features step-by-step video guides to fundamental wok cooking techniques, equipment reviews, in-depth coverage on the science, history, and growing popularity of wok cooking, and so much more. "When we sat down to figure out the theme for our first digital issue, we realized it was slated for publication at the same time as the release of *The Wok*, the second culinary opus from Kenji López-Alt, our former colleague and food-science wunderkind," says Daniel Gritzer, Senior Culinary Director and Tess Koman, Senior Editorial Director of Serious Eats in their Editors' Letter. "One thing we all felt strongly about was that, while Kenji would play a leading role in this digital issue, contributing an introductory essay, two original recipes, and a wok-science excerpt from his book, the Serious Eats Wok Issue is about more than Kenji's amazing new book—the wok's roots run too deep and its reach is too broad for us to share one person's story alone." Serious Eats' premiere digital issue celebrates China's deep culinary traditions in wok cooking and also showcases the wok's influence across cultures, with **Thai, Japanese, and Taiwanese** recipes. Additionally, Serious Eats goes on location in China to explore two possible **futures** for wok production: one, a revival of its ancient hand-hammered roots, and the other, a robotic revolution in the form of "auto-woks."

The issue includes two profiles of impressive women who have made their mark advancing wok cooking: **Tane Chan**, the pioneering owner of San Francisco's The Wok Shop and cookbook author and "wok therapist" **Grace Young**. In Grace's interview, she tells of a past fiasco in which years of beautiful seasoning on a cherished wok were stripped away by a well-intentioned but unaware helper: "I always tell that story to show people that when you start cooking with a wok—protect it. Don't let your spouse or partner or best friend wash your wok. Just make it really clear to everyone that you're taking care of your wok. I never leave my wok anywhere overnight when I travel; it will always come back to the hotel room with me."
