

# Investopedia Announces Winners of its 2023 Best Online Brokers Awards

*Fidelity, TD Ameritrade, and Interactive Brokers Named Among Industry Leaders*

NEW YORK, Feb. 28, 2023 /PRNewswire/ -- Today, **Investopedia** announced the winners of its 2023 Online Brokers Awards, highlighting the investment platforms that best adapted to the past year's changing market dynamics, including steep declines across stocks, bonds, and crypto, and a slowdown in trading, account opens, and overall activity. Investopedia selected the winning platforms that utilize research, education, and product offerings to help their customers rebuild and fortify their portfolios.

"The past year has brought investing challenges to millions of investors who may have never experienced a period of high inflation, rising rates, and a bear market for stocks and bonds," said Caleb Silver, Investopedia Editor-in-Chief. "That has compelled online brokers to help educate them on how to protect and fortify their portfolios, and offer new products to help them do it. Our list of the Best Online Brokers for 2023 reflects those platforms that have responded best to this challenging environment."

Investopedia's Best Online Brokers Awards rates brokers based on the most critical elements users would need to thoroughly evaluate an online broker, including range of offerings, mobile app usability, and costs.
